growth seen steady but slow

China's key HK committee to hold first meeting this month

The Hong Kong Preparatory Committee for the Basic Law is expected to hold its first meeting later this month in Beijing, an official said.

At the Hospital Conde S. Januario, Mrs Mou Iao Kam, 33, delivered a baby boy by Caesarian section at 1.18 in the morning. The baby weighed 3.18 kgs. The doctor in attendance, Dr Ieong said both baby and mother are in excellent condition.

... the 1990s, the expected moderate growth in the economy of western countries, increasing foreign trade within the four Pacific regions and steady economic growth in China will give impetus to Macau's economy. The report by the S.O.F. - Hong Kong Macau Regional Office said.

Macau experienced an estimated real gross domestic product growth of 1.7 percent in 1995, up from 0.9 percent in 1994, and 1.1 percent in 1993.

Unemployment in Macau stood at 2.7 percent in August, an undersurplus high of 3.2 percent in the same month.

The opening of Macau's new airport last year will add to economic development and further improve trade, the S.O.F. said.

Macau returns to 1990.

They tear the sea
When lovers taken to prison
They have mortal lips
Their bodies rap.
When they see drops
They are their bodies ocean
Their bodies float in water.
But write the seasons.
They know the time by heart.
Blood, milk, tears.
When laid in liquid.
